Sunday night movie

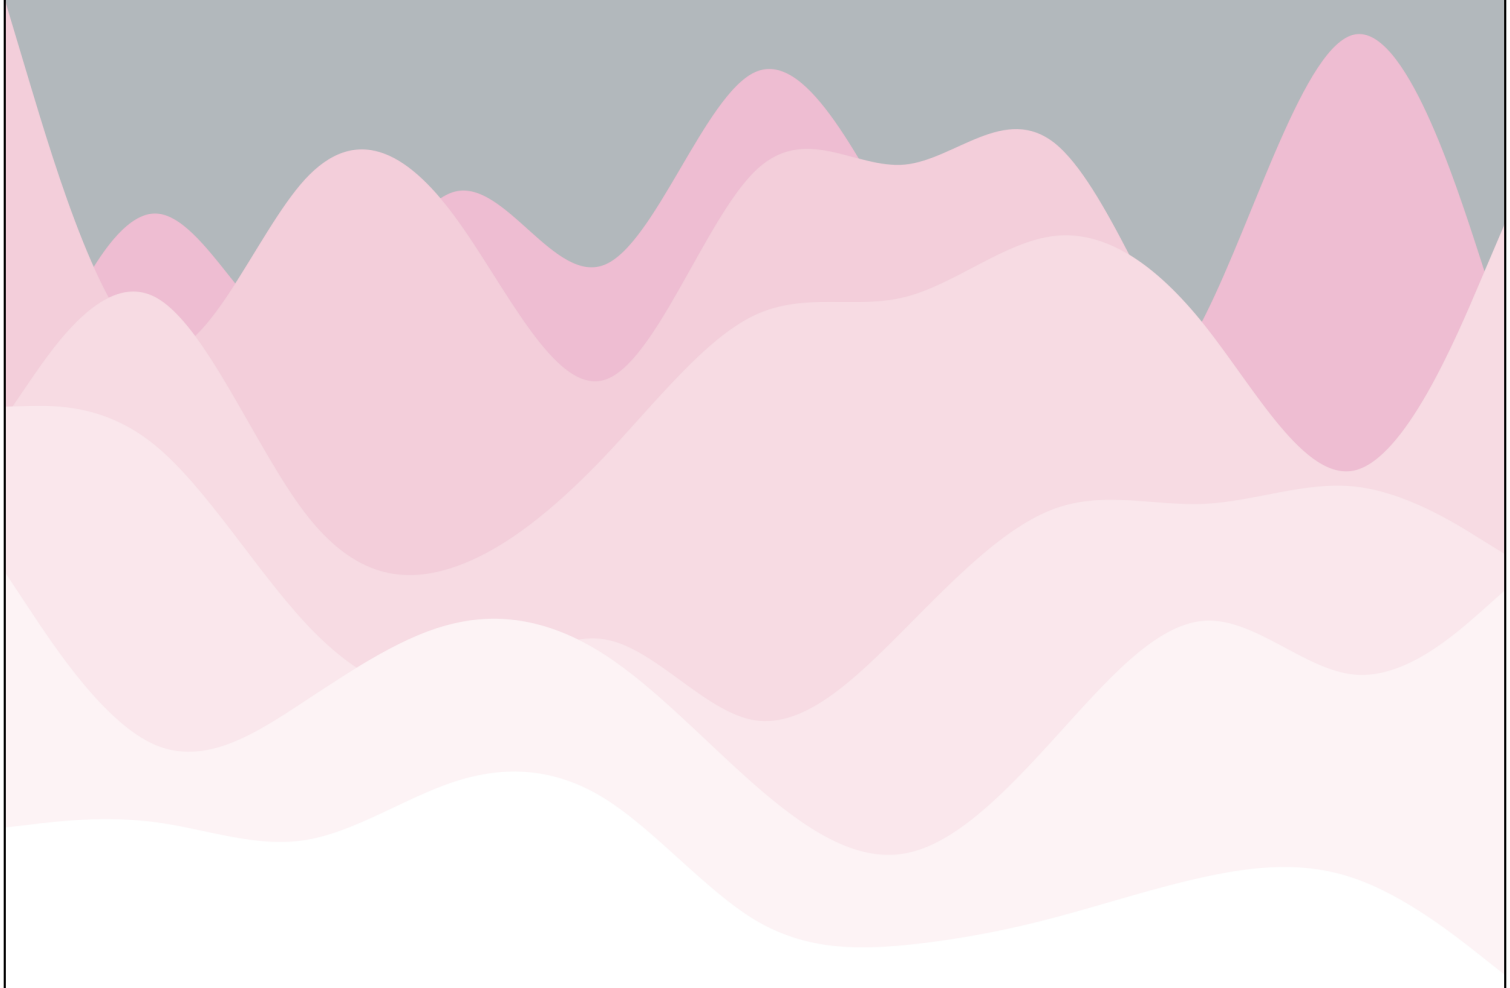

Piscine UX/UI — UX

Piscine UX/UI https://github.com/01-edu/UX-UI

Summary: A flow, wireframes, motion, three feature tests, one iteration.

Prerequisites : The previous module of this piscine, or none if this is your first.

Version: 1.0

Contents

I Instructions 2
II Foreword 3
III Exercise 00: UX VI - Ex 1 - User flow 4
IV Exercise 01: UX VI - Ex 2 - Wireframes 6
V Exercise 02: UX VI - Ex 3 - Wireframes animation 8
VI Exercise 03: UX VI - Ex 4 - Test on feature #1 9
VII Exercise 04: UX VI - Ex 5 - Test on feature #2 11
VIII Exercise 05: UX VI - Ex 6 - Test on feature #3 13
IX Exercise 06: UX VI - Ex 7 - Iteration 15

Chapter I

Instructions

The foreword is not an exercise. It will not be graded. The exercises start at the next chapter, from the easiest contract to the hardest. A later exercise is not taken into account if an earlier one does not hold.

Only what is in the turn-in directory of an exercise is looked at. Do not add files that the exercise does not name. The name of a deliverable follows the pattern in the exercise: `Name_FirstName_DeliverableName_Date_VersionNumber`.

You will not be given the gesture. The examples in an exercise sometimes carry a constraint that the sentence does not repeat. Read them. Your other references are the manual of the tool you picked, the person sitting next to you, and the links printed in the exercise.

The order is the order of the quest. Skipping a step because a later screen looks more interesting produces a screen nobody can explain.

About the pictures

The picture in the foreword is not a hint. The pale steps behind the text are the page ground.

About machines that write

You may use a tool to look up a term, the way you would use a dictionary. You may not replace an interview, a test, or a file with a generated text and sign it. If you cannot point at the person, the screen, or the line you claim, the exercise is not done.

Chapter II

Foreword

Saul Bass made the titles of a film do the work of a first scene (*Anatomy of a Murder*, 1959, is the usual example). A Sunday night in front of a screen has the same contract: the first minute must tell you where you are. The exercises ask you to draw that minute and then watch someone miss it.

Picture: JeuneCrack

Recommended watching. The videos are context. They are not the deliverable.

Chapter III

Exercise 00: UX VI - Ex 1 - User flow

	Exercise 00
UX VI - Ex 1 - User flow	
Turn-in directory : `ex00/`	
Files to turn in : `ex00/Figma file, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Context:

Your company's client is a movie theaters chain called, Movie 4 all.

They want to launch a platform for people who want to watch movies but don't want to spend endless time selecting one. You are replacing someone in the company who has already worked on the user research, the problem statement and the list of features they plan to develop. Your goal is to prototype and test these features.

Instructions:

Based on the 3 features that have come out of the ideation workshops led by your collegues, design 3 user flows (1 per feature).

Features:

- 1: Adding a filter based on their current mood
- 2: Offer a selection of 3 movies to be watched
- 3: Ask users to rate the movie after watching it for further recommendation

Deliverables:

- 3 user flows on a board (digital or pictures of a paper board)
- Upload the documents on Github, in a zip folder named "ProjectTitle_Name_FirstName", with all project deliverables as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, the first deliverable can be named as "Doe_John_MidFiPrototype_05242024_V1".

- Add a title within all written documents.
- Pay attention to the global aspect of the deliverables. They must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Recommended tools:

- Figma
- Whimsical

Chapter IV

Exercise 01: UX VI - Ex 2 - Wireframes

	Exercise 01
UX VI - Ex 2 - Wireframes	
Turn-in directory : `ex01/`	
Files to turn in : `ex01/Figma file, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Instructions:
Based on the 3 user flows, design 3 series of wireframes.
Deliverables:

- 3 series of wireframes (6 to 12 screens per flow) on Figma
- Upload the documents on Github, in a zip folder named "ProjectTitle_Name_FirstName", with all project deliverables as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, the first deliverable can be named as "Doe_John_MidFiPrototype_05242024_V1".
- Pay attention to the global aspect of the deliverables. They must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Tips:

- Drawing paper prototypes before going digital might save you some time ;)
- Vocabulary
    - Low-Fidelity: Paper Prototypes - Example here https://miro.medium.com/max/1400/1*5nUfqqA2gjdAYHagjbHA5w.jpeg

- Mid-Fidelity: Wireframes - black and white, only the main elements, on digital prototype tools - Example here https://miro.medium.com/max/1400/1*eGSfaxwYbxUFomYbyO6GWw.png
- High-Fidelity: Wireframes with color, styles, graphical details, and micro-interactions - Example here https://miro.medium.com/max/1400/1*XnOHSKAvhr4TZzC9lN5udw.gif

- The 5-pass reduction wireframing: A minimalist UX technique https://uxdesign.cc/the-5-pass-reduction-wireframing-a-minimalist-ux-technique-aa415aad9ce2?sk=a218ac4db9d1049249bd381fbc5edeee
- The art of designing good wireframes https://uxdesign.cc/the-art-of-designing-good-wireframes-8a2a9c10a95b

Recommended tools:

- Figma

Quote:
'77% of users return to content and information sites because of ease-of-use. Only 22% return because the site belongs to a favorite brand.' Forrester

Chapter V

Exercise 02: UX VI - Ex 3 - Wireframes animation

	Exercise 02
UX VI - Ex 3 - Wireframes animation	
Turn-in directory : `ex02/`	
Files to turn in : `ex02/Figma file, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Instructions:
Animate your wireframes on Figma.
Think about multistate!!
This exercise is to be made individually.
Deliverables:

- An animated prototype on Figma
- Upload the Figma file on Github, labeled as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, it can be labeled as "Doe_John_MidFiPrototype_05242024_V1".
- Add a title within the file.
- Pay attention to the global aspect of the file. It must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Chapter VI

Exercise 03: UX VI - Ex 4 - Test on feature #1

	Exercise 03
UX VI - Ex 4 - Test on feature #1	
Turn-in directory : `ex03/`	
Files to turn in : `ex03/zip archive, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Instructions:

Test your wireframes!

Focus on the 1st journey. Prepare a test protocol with your research goals (what you want to test), test it on 5 different people and write down 3 ways to improve the prototype.

Deliverables:

- A PDF document with a Test protocol
- Pictures of the ongoing tests
- A PDF document with 3 ideas to improve the prototype based on you users' feedbacks.
- Upload the documents on Github, in a zip folder named "ProjectTitle_Name_FirstName", with all project deliverables as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, the first deliverable can be named as "Doe_John_MidFiPrototype_05242024_V1".
- Add a title within all written documents.
- Pay attention to the global aspect of the deliverables. They must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Chapter VII

Exercise 04: UX VI - Ex 5 - Test on feature #2

	Exercise 04
UX VI - Ex 5 - Test on feature #2	
Turn-in directory : `ex04/`	
Files to turn in : `ex04/zip archive, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Instructions:

Test your wireframes!

Focus on the 2nd journey. Prepare a test protocol with your research goals (what you want to test), test it on 5 different people and write down 3 ways to improve the prototype.

Deliverables:

- A PDF document with a Test protocol
- Pictures of the ongoing tests
- A PDF document with 3 ideas to improve the prototype based on you users' feedbacks.
- Upload the documents on Github, in a zip folder named "ProjectTitle_Name_FirstName", with all project deliverables as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, the first deliverable can be named as "Doe_John_MidFiPrototype_05242024_V1".
- Add a title within all written documents.
- Pay attention to the global aspect of the deliverables. They must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Chapter VIII

Exercise 05: UX VI - Ex 6 - Test on feature #3

	Exercise 05
UX VI - Ex 6 - Test on feature #3	
Turn-in directory : `ex05/`	
Files to turn in : `ex05/zip archive, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Instructions:

Test your wireframes!

Focus on the 3rd journey. Prepare a test protocol with your research goals (what you want to test), test it on 5 different people and write down 3 ways to improve the prototype.

Deliverables:

- A PDF document with a Test protocol
- Pictures of the ongoing tests
- A PDF document with 3 ideas to improve the prototype based on you users' feedbacks.
- Upload the documents on Github, in a zip folder named "ProjectTitle_Name_FirstName", with all project deliverables as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, the first deliverable can be named as "Doe_John_MidFiPrototype_05242024_V1".
- Add a title within all written documents.
- Pay attention to the global aspect of the deliverables. They must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Chapter IX

Exercise 06: UX VI - Ex 7 - Iteration

	Exercise 06
UX VI - Ex 7 - Iteration	
Turn-in directory : `ex06/`	
Files to turn in : `ex06/zip archive, named Name_FirstName_DeliverableName_Date_VersionNumber`	
Allowed functions : `Those named in the exercise`	

Instructions:
Based on your previous tests, pick one of your 3 prototypes.
Implement the 3 ideas you wrote down as suggestions.
Run another series of test (and adapt your test protocol if necessary).
Write a report with the conclusion you made out of this iteration loop.
Deliverables:

- Pictures of the new test
- A report with your conclusions, your impressions and your key learnings from this iteration (PDF document out of Microsoft Word, Pages, Google Docs or any word-processing software)
- Comparison between V1 and V2 of the prototype in the report
- Upload the documents on Github, in a zip folder named "ProjectTitle_Name_FirstName", with all project deliverables as follows: "Name_FirstName_DeliverableName_Date_VersionNumber". For example, the first deliverable can be named as "Doe_John_MidFiPrototype_05242024_V1".
- Add a title within all written documents.
- Pay attention to the global aspect of the deliverables. They must be clear, simple and easy to read. You can get inspiration on canva.com but don't overload your design with too much details!

Tips:

- This report will be handed on to the CEO. Pay attention to the details and make sure the document is clean and easy to use!
